Financial review

Financial position

As at 31 March 2014, the consolidated assets of BIGBANK AS Group totalled 311.6 million euros, having decreased by 0.3 million euros (-0.1%) during the quarter.

As at 31 March 2014, loans to customers accounted for 84.7% of total assets, the proportion of liquid assets (amounts due from banks

and held-to-maturity financial assets) was 11.4%.

At the end of the first quarter, liquid assets totalled 35.5 million euros.

Free funds are partly invested in short-term debt securities with fixed payments and maturities, which the Group intends to and is able to hold until maturity. At 31 March 2014, the Group had debt securities of 3.4 million euros.

REVIEW OF OPERATIONS

At the end of the first quarter, the Group had 182 thousand loan agreements, 72 thousand of them in Latvia, 42 thousand in Estonia, 36 thousand in Lithuania, 17 thousand in Finland, 9 thousand in Spain and 6 thousand in Sweden.

Geographical distribution of loans to customers:

- 24.6% Latvia,
- 22.3% Estonia,
- 18.9% Finland,
- 12.7% Lithuania,
- 12.6% Sweden,
- 8.9% Spain.

At 31 March 2014, loans to customers totalled 263.8 million euros, comprising of:

- the loan portfolio of 288.5 million euros, loans to individuals accounting for 94.9% of the total;
- interest receivable on loans of 24.9 million euros;
- impairment allowances for loans and interest receivables of 49.6 million euros (consisting of an impairment allowance for loans of 37.1 million euros, an impairment allowance for interest receivables of 7.0 million euros and a statistical impairment allowance of 5.5 million euros).

BIGBANK's loan portfolio is diversified – at the reporting date the average loan was 1,950 euros and as at 31 March 2014, 40 largest loans accounted for 4.6% of the loan portfolio.

BIGBANK AS focuses on the provision of consumer loans. In line with the corporate strategy, as at 31 March 2014 loans against income accounted for 86.4%, loans against surety for 5.2%, loans secured with real estate for 6.9%, loans with insurance coverage for 0.4% and

loans granted against other types of collateral for 1.1% of the total loan portfolio.

As regards past due receivables, it is important to note that the collection of non-performing consumer loans differs significantly from the recovery of loans that have physical collateral (for example, mortgage-backed loans). Due to their nature (as a rule, consumer loans are backed with the customer's regular income), claims related to terminated consumer loans are satisfied in smaller instalments over an extended period rather than in a lump sum raised through the sale of the collateral.

Past due loans comprise loan principal that has fallen due. Under the terms and conditions of its loan agreements, the Group may terminate an agreement unilaterally if at least three scheduled payments are in arrears. When an agreement is terminated, the customer has to settle any outstanding loan principal, any accrued interest, and any collateral claims resulting from the settlement delay.

Loans past due for more than 90 days consist of past due principal payments plus the total amount of loan principal that has fallen due in connection with termination of agreements.

To mitigate the risks arising from customers' payment behaviour and to cover potential credit losses, the Group makes impairment allowances, which are created on a conservative basis. At 31 March 2014, impairment allowances totalled 50.7 million euros, consisting of:

- impairment allowances for loan receivables of 37.1 million euros,
- impairment allowances for interest receivables of 7.0 million euros,
- statistical impairment allowances of 5.5 million euros,
- impairment allowances for other receivables of 1.1 million euros.

Where debt recovery proceedings do not yield expected results, the underlying receivable is written off the statement of financial position.

At the end of the first quarter of 2014, the Group's liabilities totalled 240.4 million euros. Most of the debt raised by the Group, i.e. 236.0 million euros (98.2%) consisted of term deposits.

In the first quarter of 2014, the Group's equity grew by 1.5 million euros (2.1%) to 71.2 million euros. The equity to assets ratio amounted to 22.8%.

Financial performance

Interest income for the first quarter reached 14.6 million euros, increasing by 1.9 million euros (15.2%) year over year.

The period's ratio of interest income (annualised) to average interest-earning assets was 18.4% and (annualised) return on the loan portfolio accounted for 20.4% of the average loan portfolio.
